

## Update from The Farm At Oatland North

Greetings from The Farm:

This is our first newsletter. We would like to share news from the farm on a regular basis and if there's interest, it would be fun to get some feedback.

The farm was formed or came into being for the protection of unwanted and abused animals. We want to give them a feeling of security and trust that they may never have experienced before.

We really didn't mean to grow so fast but there was such a great need that we couldn't turn away. This is our tenth year.

We have learned so much from the animals and the many people that come to visit and some that have stayed to work day after day.

We all have been given a gift to be in such close proximity to these animals and watch them learn from each other and let down their guard and give complete trust.

Every day, there are challenges to face, but for the most part the Farm is doing good!

We have received many hours of volunteer work. It is sometimes backbreaking work. Our 501c3 has brought in much needed donations too.

## Update on Barbara

As many of you may have heard, Barbara Murrah was recently diagnosed with a serious illness and is undergoing treatment at Emory University Hospital in Atlanta. Barbara is the heart and soul of the farm and the absence of her kind soul and gentle heart is sorely missed. All of your thoughts, prayers and well wishes for Barbara have been very much appreciated.

Barbara has worked tirelessly to ensure all of the animals

have what they need to live out a peaceful life on The Farm. Please help Barbara by helping The Farm with a donation. Your donation will be greatly appreciated and is 100% tax deductible. Please visit the website for more information on how to make a donation.
