Dear Jim,

This seems to have been overlooked when I sent you a packet this morning.

Love,

Betty

Well, it's now Sunday and I have not had any return of any extreme pain. I know this is not a cure-all and that apparently it is able only to diminish an active pain but ~~it~~ really helps! Ed is going to Florida next week and he will try to buy me some.

Thanks for the letter and paper from the Bruce Society. I must say that I think the person in charge is not very knowledgeable. Those genealogist sheets are not worth a dime without authentication. However, we might learn something through mingling. I am enclosing a check for the dues and I still owe you for a telephone call and for the medicine from England. I guess this will cover my debts.

I am leaving the making out of the membership application for you to handle. I enclose what information I can justify on it. I suggest you become the active member and on 2nd line you can start the Bruces with my name.

more fully one day soon.

A book Tyner Tarn-1704-1971 and Bruce Relations in
Robeson Co., N. C. might be worth looking at. One Absalom
Bruce is represented and he sounds like our George's son,
Absalom.

Much love,
Mommie
